ONE COMPANY • ONE SOLUTION

Testimonials

Amperion UK

Delivers power WiFi to utilities

Issue: Expensive international calling from landlines and mobiles.

Solution: Amperion UK were required to make lengthy long-distance calls to countries throughout Europe, the USA and Africa. This manner of call usage was costing a lot of money. Connect Everywhere provided Amperion UK with a low-cost call package making sure that all calls – local, national and international – were at the best rates available.

Amperion UK's mobile phone plan is also restructured every year to take advantage of the best international rates that the mobile networks offer whether that be through Orange, O2, Vodafone or T-Mobile, due to extensive international travel.

Far Excel

Haulage and couriers

Issue: Expansion and subsequent office moves causing change of company contact number.

Solution: Connect Everywhere handle all of Far Excel's communications and therefore when they wanted to move office 3 times in all to

accommodate for expansion they knew that fixed line setup would be completed quickly. However, due to a locality change each time they had to keep changing their contact telephone number.

Connect Everywhere provided Far Excel with a memorable 0844 number that could move with them wherever they moved to in future and provides them with a host of additional benefits they hadn't had before.
